

DEPARTMENT OF THE AIR FORCE
SHADOW MOSES AIR FIELD, ALASKA

E-MAIL RECORD
Current yard status of REX-45

From	SSgt Johnny Sasaki, Equipment Custodian, 713th Logistics Readiness Squadron (713 LRS)
To	Dr. Hal Emmerich, Chief Facilities Engineer, 713 CES
Cc	Maj Helena Dolph Jackson, Contracting Officer, 713 CONS; 713 LRS Operations
Sent	24 August 2027 / 0758 Alaska time
Subject	REX-45 status this morning

Message

JOHNNY SASAKI: The REX-45 is in the LRS cargo-equipment yard and passed its 0630 operator check. It does not have a dispatch posted for today, so it is just sitting there right now. If LRS leadership and Contracting approve the contractor's request, my section can support a joint issue inspection and stage the machine at Building 100 tomorrow morning.

I have not released the forklift, transferred accountability, or promised it to Diamond Dogs. This message confirms what is on the yard and its status today. Please send me the written disposition and any issue instructions before anyone collects the keys.

Respectfully,
Johnny
SSgt Johnny Sasaki, USAF
713 LRS Equipment Custodian
