SHADOW MOSES AIR FIELD, ALASKA

REX-45 EQUIPMENT RECORD EXTRACT

713 LRS material-handling equipment account | snapshot 24 August 2027

Asset ID	713LRS-MHE-0045
Nomenclature	Forklift, rough-terrain, diesel, 45,000-pound class
Fictional make / model	Raven Industrial REX-45
Serial / property record	REX45-20-0713 / DPAS training record 0007130045
Owning organization	713th Logistics Readiness Squadron (713 LRS)
Custodian / location	SSgt Johnny Sasaki / Cargo Equipment Yard, Row C

Technical and condition data

Data element	Recorded value	Data element	Recorded value
Rated capacity	45,000 lb at 24-in load center	Maximum lift	15 ft / straight mast
Operating weight	71,400 lb	Overall width	10 ft 2 in
Power / drive	Diesel / 4-wheel drive	Attachment	Fork carriage, 96-in forks
Acquired	FY20	Operating hours	1,842.6
Condition	Fully mission capable	Last inspection	24 Aug 2027 / 0630
Replacement value	\$1,380,000 (planning record)	Next scheduled service	15 Oct 2027 or 2,000 hours

Issue controls shown in the asset record

Control	Record requirement
Operator	Current qualification for the specific equipment class; spotter when visibility or load geometry requires
Condition	Document issue and return condition, photographs, hour-meter reading, fuel level, and discrepancies
Movement	Route approval required before travel outside the cargo yard because of machine weight and width
Custody	Keys and equipment remain controlled by the appointed custodian until written release instructions are received
RECORD LIMIT: This extract identifies the asset, its condition, and ordinary issue controls. It does not establish ten-day mission availability or authorize contractor use.	

Record note: All manufacturer, serial, DPAS, capability, condition, and valuation information is fictional and created solely for this exercise.
