SHADOW MOSES AIR FIELD, ALASKA

COR WAGE-CLASSIFICATION CONCERN

Campbell Hall Task Order FA-27-005

From	1st Lt Jack 'Raiden,' COR, 713th Civil Engineering Squadron (713 CES)
To	Maj Emma Emmerich, Contracting Officer, 713th Contracting Squadron (713 CONS)
Date / time	13 September 2027 / 0742 Alaska time
Prime / subcontractor	Peace Walker Infrastructure Partners, LLC / Volgin Electrical Services, LLC
Subject	Certified-payroll classification question - week ending 10 September 2027

Observed facts

During routine Campbell Hall surveillance on 8 and 10 September, I observed Elena Cruz, Marcus Hale, Tariq Benson, and June Park installing metal raceway and conduit, pulling conductors, mounting electrical boxes and panel equipment, and making de-energized terminations under Volgin's electrical foreman.

The current certified payroll transmitted by Peace Walker identifies each of those four workers as 'Laborer - Common or General.' The names and employee identifiers match the workers recorded in the daily inspection log. I have not determined which wage classification applies and have not interviewed the workers about prior weeks.

Please advise whether Contracting needs additional payroll, interview, wage-determination, or field records before the next progress-payment cycle. Payment Request No. 005 was resolved on 1 September; the active task order's next regular payment request is expected after the 20 September cutoff.

COR RECORD LIMIT: This memorandum reports observed work and a classification discrepancy. It does not decide whether a labor-standards violation occurred or direct the contractor to change payroll.
